Summary

Computer Systems Engineer specialized in Frontend Development, with two years of hands-on experience. Proficient in JavaScript, Git version control, and skilled in testing with Jest & Cypress. I combine Systems Engineering knowledge with a focus on creating user-friendly applications through robust frontend solutions.

Skills

JavaScript • HTML • Alpinejs

Work Experience

frontEnd developer

Jun 2021 – Jun 2023 • 2 yrs

AETO • Full-time

Remote

Technologies: JavaScript • HTML/CSS • Alpinejs

In my role, I extensively utilized JavaScript and AlpineJS to craft dynamic and responsive user interfaces, ensuring an engaging experience for our audience. Implementing Gitflow methodologies streamlined our collaborative development, enhancing code integrity and team efficiency. Additionally, my proficiency in HTML/CSS played a pivotal role in creating visually appealing and accessible web components, contributing to the overall user-centric design approach of our projects.

Projects

Portfolio

Nov 2023 – Nov 2023 •

Technologies: Java • HTML/CSS

Explore my portfolio for a showcase of dynamic and interactive projects, demonstrating my skills in front-end development and creative problem-solving.

Education

Bachelor's degree: Computer Systems Engineering

Aug 2018 – Dec 2022 • 4 yrs 4 mos

UNITEC

León Gto., Mexico

Graduated with a degree in Computer Systems Engineering, equipped with comprehensive knowledge in software development, systems analysis, and computer architecture. Acquired practical skills in programming, database management, and network administration, poised to tackle complex technological challenges.
